Re: Petition of Georgia Power Company for Declaratory Order Finding That a Certificate of Environmental Compatibility and Public Convenience and Necessity is not Required or, in the Alternative, Application for a Certificate of Environmental Compatibility and Public Convenience and Necessity for the Construction and Operation of Georgia Power's South Carolina Portion of the Graniteville – South Augusta 230kV Tie Line and Associated Facilities; Docket No. 2020-67-E

Dear Jocelyn:

As you will recall, the Office of Regulatory Staff ("ORS") has filed a letter in the above-captioned docket stating that ORS does not object to Georgia Power Company's ("Georgia Power") petition for a declaratory order finding that a siting certificate is not required under the very unique and fact specific case presented by Georgia Power in this docket. We consequently believe that the petition portion of our pleadings in the above-captioned case is now ready for Commission consideration and action. Therefore, on behalf of Georgia Power we respectfully request that the above-captioned petition be placed on the agenda for the Commission Business Meeting to be held on Wednesday, March 25, 2020.

By copy of this letter we are serving via email all parties of record.
